To Whom it may concern:

We are a community with wonderful police, fire, Paramedics services, schools, and a Hospital which services a rather large area here. One of our main problems is the traffic flow through town on Rte 59, Lake Cook Rd and Hwy 14. If you are even contemplating cutting off our flow of traffic with 15-26 more trains per day which could exceed 700 feet (about 1 1/2 mi) this would interfere with our health, our fire protection, our police & our schools! Not to mention the noise and vibrations of the trains themselves! The only solution to this problem would be for CN to build and maintain overpasses either for cars or for trains. Their proposed plan would literally divide our town in 2-4 pieces and create a hazardous place to live! This would be an expensive beginning but would tend to be beneficial to both parties!
